

I am writing to express my concern about the proposition to allow LPFM stations to take priority over current FM translator service. We have a radio station in Georgetown Ky. called K-LOVE that is a great friend to our community. There is a great need for Christian radio in America today considering the course our nation has taken the last 20 years. If we ever needed God in our lives, it is today. I believe it is in our best interest to keep stations like K-LOVE on the air to spread the Gospel of Jesus Christ. Please give FM translator stations priority to continue this great service. Thank you for allowing me a chance to express my concerns.
